

TIME MACHINE

Dear Parents,

We are pleased to announce an upcoming event: the Time Machine! Throughout the year, your 6th grade student has been studying and exploring ancient civilizations and world history. In order to provide a sense of accomplishment and to be able to showcase all of their hard work, 6th grade students will participate in the Time Machine.

Your student will be provided with a civilization and will have the opportunity to research a specific historical figure related to the time period. Students are then required to answer eight questions, create a short group skit, costume, and work in a small group to construct a small set. On May 24th students will present their historical figure to the school. Due dates and expectations can be found within this packet.

As a 6th grade team we are excited to see your student's creativity as well as their understanding of ancient civilizations. We hope to reinforce research and writing skills, as well as creativity, teamwork, speaking and listening skills. We appreciate your willingness to support your student in this production and look forward to seeing their great accomplishments!

Sincerely,

The 6th Grade Team
